## Importance of Recall Visits

Is it necessary to get your teeth cleaned twice a year? YES! Semi-annual cleanings are **invaluable** when it comes to your oral health. Preventive maintenance appointments serve many functions other than removing ugly stains off your teeth.

- X-rays are taken to find cavities at their earliest development, so that less invasive and less expensive treatment can be completed.
- Bacteria in the form of plaque is removed which will begin to cause destruction of gums and bone if left intact for 3 months.
- Finally, your mouth is examined for oral cancer. Early detection is important for treatment and prognosis,

So, don't put it off any longer! **Call today** to schedule an appointment with our new hygienist Karen.

## Meet our New Staff!

Over the past several months, Yost Dental has added several new members to our team to better serve the needs of our patients. Each of our new members is highly skilled and confident in their respective fields with a minimum of ten years experience.

- **Chasity** – Patient Coordinator
- **Karen R.D.H.** – Dental Hygienist
- **Laurie R.D.A., C.D.A.** – Dental Assistant

## Time Is Running Out!

Do you have dental insurance? Have you been putting off getting the dental treatment that you need? If so, time is running out.

Things to know...

- Most dental insurance plans **will pay \$1,000 or as much as \$2,000** each year towards the cost of your dental treatment.
- Your insurance benefits do **NOT** carry over to the next year. Those benefits and your savings are **lost forever**.

**Call 771-4007** to schedule your appointment before the end of the year to take full advantage of your dental insurance and reduce your out of pocket cost.

**Don't let your expensive dental insurance go to waste!**

**From Dr. Yost** - Thank you for helping our practice continue to grow by referring your friends and family to our practice. We will give them the same exceptional treatment that you have come to expect from our office. Thanks again.
